- 1 **JERSEY CITY CONSIGNMENT. Large Cents.** 1816. Newcomb 2. Unc., iridescent medium to light brown; usual blunt strike. Randall Find variety. Record \$20. for a gem.
- 2 1821. N-2. Wide date. Fine, faint nicks; chocolate brown patina.
- 3 1823. N-2. Perfect date. Obverse not quite VF, reverse fully of that grade; truly exceptional. Early state of die breaks.
- 4 1847. **Unlisted.** Obv. N-4, with double cut 18. Rev. New die with UNITED ST recut and with crumbling within E of UNITED; compare "DuPont" 878. Unc., light olive and mint red.
- 5 1852. N-3. Unc., brown and faded mint red, as this variety often comes; numerous bog marks.
- 6 Remainder of the large cents. 1818 N-10, 1819 N-2 (L. Date), 1822 N-2 (Close Date), 1825 N-6 (Small A's), 1827 N-4 (Score), 1828 N-6 (2 over 8), 1829 N-1 (L. Letters), 1835 N-15 (Head of '36; unpublished perfect die state, RRR). About VF to EF-45, overage better than VF. For better than the average Late Date lot. 8 Pcs.
- 7 **Half Dollars.** 1825, 26, 32 Small letters, 34 Small date, stars and letters, large C in 50 C. All VF to AU, all with mint lustre—bought as Unc. from dealers who should have known better. 4 Pcs.
- 8 1827. Square based 2. Brill. Unc., rather blunt strike as commonly seen in the twenties. This may have been dipped, but if so it was a successful job, as the coin is nice. Faintest hint of "celluloid slide blues", and a few bog marks. Minor edge irregularity as made.
- 9 1838. HALF DOL. on reverse (type coin). Nearly Very Fine.
- 10 1849. Recut 9. About EF, cleaned; bought as Unc., like the lost.
- 11 **Canada. Large Cents. 1859 over 8,** wide 9. VF, overdate very plain.
- 12 1859. Normal date, narrow 9. Shattered dies, the reverse particularly so. Unc., brown and original red.

- 13 1902 and 1905. Unc., mint red and light brown; second with minute bag marks. 2 Pcs.
- 14 1858 (VF), 1908-13, 1916-19. Last Unc., remainder mostly EF to AU. Also, **Small Cents**. 1926, 1944-45-46-47ML-48. VF, EF-AU (3), Unc. (2). Cot. over \$17.50. 17 Pcs.
- 15 **MASSAPEQUA CONS. Small Cents**. 1857. Flying Eagle. Better than EF, signs of old cleaning; bought as Unc.
- 16 1858. Large letters. Thin recut date. VF plus, nicked and scratched.
- 17 1858. Small letters. Really Unc., weakly struck but lustrous, despite traces of old cleaning. Many small rim breaks on reverse. (Nickel was much resented in the Mint because of the excessive wear and damage it inflicted on the dies.)
- 18 **Indian Head**. 1859. Close to EF, old cleaning. Not bad. Popular!
- 19 1860. Shade from Unc. Bought as perfect, like most of these.
- 20 1861. EF to AU, lustrous. Very scarce.
- 21 1862. Brilliant Unc., minute rev. spot; one or two bag marks, otherwise approaches "gem" quality.
- 22 1864. Bronze. Unc., brown and original red. Increasingly popular.
- 23 1864 "L". Unc., obverse brown with some original red, reverse more than half red. Possibly a trifle better than the coin in our 50th Sale which brought \$65.00.
- 24 1865. In date 5 recut, possibly (but not probably) over a 4. Red Unc.

- 25 1866. In date 1 and 6 double cut. VF, scotch at final A of AMERICA.
- 26 1867. Close to Fine, the reverse better; obv. seemingly polished.
- 27 1868. Unc., red and olive; apparently dipped and retoned long ago, but quite acceptable.
- 28 **1869/8.** Fine, full LIBERTY. Better than many sold as "VF."
- 29 1870. Unc., mostly red; obverse somewhat dull, possibly cleaned long ago but fairly nice.
- 30 1871. EF, cleaned. Probably can be restored; should then be worth about \$30.00.
- 31 1873. Closed 3. Choice blue and red Proof. Unblemished and untampered. Minute mark where lint remained in the die (not an impairment).
- 32 **1877.** Though apparently a **Proof**, this unusual purplish example has round edges and a few tiny spots. Should be seen.
- 33 1878. Unc., red toning down; a first strike, choice in every way but for one minute spot on bottom rev. border.
- 34 1882. Proof, dipped in the wrong kind of cleaning fluid. Should tone down in a few months. Also, 1883. Formerly proof; cleaned, high surfaces a little the worse for the treatment. Possibly improvable. 2 Pcs.
- 35 1884. Practically perfect; brown with traces of red. Minute edge nick. A coin all too likely to be dipped and resold as "Brill. Unc."
- 36 1885. Poorly cleaned Proof. This one needs a few weeks' exposure to sunlight.

- 37 1886. Type I. Bright red Unc.; one tiny rev. carbon spot, otherwise choice.
- 38 1888. Resembles a Proof, but with rounded edges like the 1877; brown and red, several tiny spots. We have seen worse in outhentic proof sets of the year.
- 39 1889. Brilliant Unc., spotless. Chip out of plonchet os mode (before striking).
- 40 1891. Poorly cleoned and fingermorked Proof (use alcohol, followed by sunlight). Not neorly os bod as it sounds; definitely restorable.
- 41 1892. Pale red Proof. Choice.
- 42 1893. Deep red Proof, toning down to reddish brown. Rather attractive.
- 43 1894. Praaf, obverse poorly cleaned and os a result minutely rough; reverse much better.
- 44 1896. Rather deep red Unc., chalice despite one smoll obv. spot. Far some reason, popular.
- 45 1903. Deeply toned Proof.
- 46 1908 "S". Obverse V. Good, reverse Fine; cleaned long ogo. We hove seen many warse.
- 47 1909 "S". Brilliont Unc. "gem," pale golden as always; op-
porently original color, like the one that brought \$73. in
our 50th Sale. This one may exceed thot figure, os cleaned
exomples have been offered ot higher prices.
- 48 Remoinders. 1863, 64 Copper-Nickel. Also, 1837 Feucht-

- 49 1874, 75, 76 (very weak date), 80, 87, 90, 97, 99, 1909. F-VF (4), Cleaned Unc., Cleaned EF (2), EF-AU, Fine. 9 Pcs.
- 50 1879, 81, 95, 98, 1900. AU, Unc. red but spatty (nat bad), AU (cleaned), Brill. Unc. but spatty, Unc. dull red. Cat. over \$23.00. 5 Pcs.
- 51 1901, 02, 04-08 inclusive. All more or less Unc., with varying amounts of red and spattiness, except the 1907 which is AU, cleaned and stained. Good starter lot. Cat. over \$15.00. 7 Pcs.
- 52 **Rare Half Dollar.** 1828. Large 8's, **curled knobbed 2.** V. Good plus, but not quite Fine. More than two-thirds of the specimens seen are no better than this.
- 53 White plastic holder designed for the set of small cents, 1856-1909 "S"; uninscribed. Almost perfect. In flannel wrapper.
- 54 **BRONX CONS. Half Cents.** 1803. Gilbert 2. Wide fraction, bar joined to ribbon. Just about Fine; surface better, but not well struck up in centers.
- 55 1803. G-3. Close fraction. (These should be Std. Cat. types.) Better than Fine, also not well struck up in centers (seemingly characteristic of this date and 1802). Where struck up this could almost pass as VF.
- 56 1805 and 1806. Stemless (G-1) of both dates. Fine, edge dents; VF, minute rim nicks. Worth about \$12.00. 2 Pcs.
- 57 1806. Same variety. VF or better; late state of reverse die. Cat. \$10.00.
- 58 1835. G-1. Close ST. AU-55, light and dark tan with traces of mint red.
- 59 **Quarters.** 1821. Browning 3. (R-3.) A rather hard piece to grade, this has sharpness of Fine (the reverse better than the obverse) and some surfaces better, some worse. Parts of the bust and curls suggest VF. Perfect die.
- 60 1834. B-1. No period after C (type coin). Very close indeed to Unc. From a distance this looks like a Proof. Close up reveals a first strike with some minute abrasions. Desirable.

- 61 1861. EF to AU, considerable mint lustre. Small rim dent, reverse pinpoint dark spot.
 - 62 1876. A little better than last; shattered dies. Worse sell as Unc. daily, and this is actually very close to perfect.
-
- 63 **Half Dollars.** 1795. Beistle 4-G; Haseltine 4. The famous and RR "Double Date" type. Better than VG, but plugged with extreme skill, once through E of LIBERTY, once at 9 of date. A true type coin, seldom encountered in any condition; rarer, we think, than the famous Three Leaves which has the same obverse.
 - 64 1808. B. 3-C. In date 1 lacks left base. Close to EF, lustrous, despite signs of old cleaning; bought as "EF-AU" from a prominent dealer.
 - 65 1838. HALF DOL. Though a little weakly struck, this lustrous coin is better than many of those sold as Unc. It is actually only a hair's breadth from that grade, having signs of handling which may safely be described as trivial.
 - 66 **GREENWICH VILLAGE CONS. Vermont Cent.** 1788. Ryder 27. Now Rarity 4. Newburgh (Machin's Mill) Mint. About VG, weakly struck; everything legible.
 - 67 **Large Cents.** 1794 Sheldon 24, 1795 S-70, 1796 (L. Cap) S-82. VG/G, Fair (2, legible dates). Last Rarity 5. Uncommon lot. 3 Pcs.
 - 68 1796. **S-108.** Rev. Type of '94. Good; nearly R-6. Book value close to \$20.00.
 - 69 1797. S-126. Sharpness of almost VF, diffusely rough. Broken obverse die; weak struck in upper left rev. as commonly found.
 - 70 1798. S-173 and S-184. Small dates. VG and Good. Also, 1800 unidentifiable and an 1804 Half Cent, Gilbert 4; VG plus. 4 Pcs.
 - 71 1800/98 S-190 (R-5); 1801 S-219 (Three Errors). Good and Fair. 2 Pcs.
 - 72 1800 S-209 (R-5); 1802 S-225 (R-4). V. Good, second quite sharp but diffusely rough. Book value over \$22.00. 2 Pcs.

- 73 1802. S-225. VG-10; basically Fine but flatly struck. Late die state. Unusually smooth planchet for this variety.
- 74 **S-240.** Nine berries, long crack slants up from bust. Fine or better, but dark and rough. Since the Condition Census on this high R-5 variety is 30-20, this coin acquires importance.
- 75 S-233; and 1803 S-250 and 256. All R-4. VG plus, VG and Good. Book value over \$25.00. 3 Pcs.
- 76 S-265 (L. Date and Fraction), 1805 S-268 (Rare Blunt 1), 1807 S-275 (Rare Large Fraction). Good or better, the third nearer VG. Book value over \$33.00. 3 Pcs.
- 77 1817 N-15 (R-5), 1818 N-10 Without the usual die breaks (rare), 1826 N-5, 1837 N-3 (L. Letters), 1848 Unattributed. Abt. Good (1) to almost EF (1), average Fine. 5 Pcs.
- 78 **1835. Unlisted. "B-18."** Obv. N-3, rev. N-13. Good or better, same reverse corrosion; but a borderline **R-8**. Condition Census 15-4, and this is not the worst of the four known; should be worth about \$12. or \$14. on today's market.
- 79 1850. N-7. Blazing red Unc., "gem". Records of \$12. to \$17. for similar examples. A real beauty, the color beginning to mellow.
- 80 **N-21.** Unc., the mint red partly toned to light brown. **Rarity 7** and seldom offered. Potentially a \$20. coin.
- 81 **Small Cents.** 1884. Unc., mint red toning to olive and brown. Attractive!
- 82 1886 Type I, 1890, 1891. All Unc. or very close to it; brown with traces of mint red. 3 Pcs.
- 83 1887. Unc., original red toning down. Two minute rev. spots.
- 84 1893 and 1906. Unc., first light olive and faded mint red, second pale mint red toning down. Uncleaned and untampered, like the others in this consignment.

- 97 Newcomb, H. R. U. S. Copper Cents, 1816-57. Original, the "super-deluxe" edition on fine heavy paper, nearly twice the thickness of the regular issue. Red leather binding. New. Has been quoted to \$50. First time, so far as we know, that a copy of this limited issue has come up at auction. Much more durable than the regular cloth-bound copies. Very rare.
- 98 **LAKE FOREST CONS. Calanias, Oak Tree Twopence.** 1662. Intermediate stage between Noe 30 and 31. Better than Fine where struck up, but obv. about 1/3 off center and weakly struck at right; rather heavy dent near 1 of date. Corresponding weakness at EW ENG. A fully acceptable example of this popular denomination.
- 99 **Small Pine Tree Shilling.** 1652 (i.e. 1675-82). Noe 29; Crosby 14-R. Double curved branches; small letters. Fine, weak at borders as usual for the variety (see illustration in Std. Cat.); light polygonal clipping which also seems to be characteristic of this and Noe 30. Nice, and far above average.
- 100 **Pine Tree Threepence.** 1652 (i.e. 1667-75?). Noe 36; C. 2^a-B. Tree without berries. Fine or so, deeply toned. Rim break above AS. This denomination rarer than the Shilling.
- 101 1722 Rosa Americana Twopence; 1723 Wood's Halfpenny; 1783 NOVA CONSTELATIO (sic) with blunt rays; 1787 New Jersey Cent, Maris 48-g (common); 1788 Mass. Cent, Ryder 2-B. Good to VG. 5 Pcs.
- 102 1785. NOVA CONSTELLATIO. **Crosby 4-D.** Very Good; RR.
- 103 1787. Mass. Cent. **Ryder 2^b-C.** VG, dark and somewhat rough. RRR, seldom seen.
- 104 1787. Fugio. **Newman 12-M.** STATES UNITED; cinquefoils. About VG, light mint clip. **Rarity 7.**
- 105 (1783?). Washington Double Head Cent. Fine or so, cleaned.
- 106 **Half Cents. 1796.** B-20: 1-A. Gilbert 1. With pole to cap. Basically VG, strong date; this piece has a dark green rough patina which in many places would have to be called old corrosion. It has obscured RTY and some parts of the reverse (which is always weakly struck in centers), so that 1 in UNITED, final S in STATES and most of AMERICA are hardly legible. However, a genuine 1796 and as such highly desirable. We know that worse ones have sold for over \$250.00.
- 107 1797. B-24: 3-B. G-3. Head properly centered. V. Good, lightly scratched and nicked; overstruck on a 1795 Talbot, Allum & Lee cent. A true type coin.
- 108 **1847. Original, large berries.** Close to Ex. Fine, despite a couple of minute obv. rim nicks. One of only eight originals in collectors' hands (two others being in museums); there are also two restrikes with the large-berry reverse known. Ex Parsons sale (1914), lot 1984; Hillyer Ryder collection, and our

44th Sale, lot 325 and Platé IV. There it was a sleeper at \$71.; \$120. would be a more reasonable figure today.

- 109 1855. Only one variety. Unc., light olive and traces of faded mint red. Nice, as this is free of the black spots that plague most of the Elder hoard examples. Bringing \$8.—\$10.00.
- 110 1837. Token, HALF CENT WORTH OF PURE COPPER. Low 49. Nearly or quite EF. Popular.
- 111 **Large Cents.** 1796 S-84, 1798 S-173, 1800/98 S-190, 1802 S-225. About Good to Good plus. Third quite rare, lost scarce. 4 Pcs.
- 112 1802 S-231 (Stemless, single fraction bar); 1807 S-271 (Comet), S-276 (Common Large Fraction), and on 1826 Half Cent, Gilbert 1. First three overage VG, lost nearer VF but cleaned. 4 Pcs.
- 113 **1804.** Perfect dies. Good-6. Unevenly struck so that ED STATE is very weak, remainder strong. Obverse comparatively clean, reverse a trifle rough with rim nick at bottom; trace of lacquer (use acetone). Fully acceptable.
- 114 "1804." **Restrike.** Red and olive Unc. Off center about 1/8 inch at right. Slightly nicer than the example in our 50th Sale which was bid up to \$36. on the floor.
- 115 1808. S-277 and 279; 12 and 13 stars. V. Good plus. Surface of the first suggests Fine and the coin is actually near that grade, particularly on reverse. Worth about \$16.00. 2 Pcs.
- 116 1817 N-16 (Fifteen stars), 1821 N-2 (Wide date), 1823 N-2 (Perfect date), 1828 N-10 (Small date). Average V. Good or so, first bold. Important lot of type coins. 4 Pcs.
- 117 **1839/6.** N-1. Almost Fine obv., reverse better than Fine; obverse, though bold, shows some slight roughness and several rim nicks. Perfect dies. This is, nevertheless, an above average example; the Thompson hoard (1915), which had 28 of this variety, had less than five better ones. We have not handled more than a half dozen finer ones, if that many.
- 118 1846. N-7. Better than EF-45, with some lustre; light brown. Decidedly scarce variety.
- 119 Incomplete set of Late Dates, 1817-56. Includes one of each date except 1818, 23, 27-31, 33, 41, 44, 45. Some duplicates and some type coins are included. Good to VF. A little above the usual run. 37 Pcs.
- 120 **Small Cents.** 1881. Red Unc., first strike. Choice, almost spotless.

122 1887. Mostly red Unc., abv. somewhat fingermarked.
123 1922 "D". Blazing red Unc., two or three microscapic green spots.
124 1931 "S". Brilliant, red Unc., as usual. Quoted now to \$20.00!

126 1932. Bright red Unc., mostly choice. Far less camman than usually believed. 2 Pcs.
127 1933. Brilliant Unc. Climbing daily; though quoted in the Std. Catalogue at \$5.50 (italicized), a roll of fifty brought \$300. in our 50th Sale, or \$6. apiece.
128 1933 "D". Red Unc., fading; fingermarked on reverse. Not bad.
129 3¢ Nickel. 1889. Though bought as "Praaf", this looks to us more like a first strike. A few minute spots. Popular final year; limited mintage.
130 5¢ Nickel. Shield. 1867 Rays, 67 No rays. Also, Liberty. 1912 "D" (2). Good to VG. Excellent for resale. Lastly, 1837 Feuchtwanger Cent. Breen variety 3-E. Fine plus. Rare, only 9 or 10 seen. 5 Pcs.

- 133 **1936. Proof**, first issue; microscopically spotted. Guidebook overpriced at \$125.00.
- 134 1942. Type II. Proof. Mostly wrapped in aluminum foil. These should never be cheaper. 11 Pcs.
- 135 **1950 "D"**. Unc. Roll of 40. This mintmark has been getting quite a play of late. 40 Pcs.
- 136 **Trimes. 1851 "O"**. Unc., or practically so; deeply toned and tarnished, not well struck up.
- 137 **1873**. Lost year. Toned Proof. One of only 600 struck. Only its size militates against its potential \$100. status; consider

60

- the 2c of this year, and the 20c of 1877-78.
- 138 **Half Dimes. 1792**. Good-VG obverse, Fair or About Fair reverse; skillfully plugged through B in LIB. Space filler for perhaps the most historically desirable American small silver coin.
- 139 **Half Dimes. 1860 "O"**. Deeply toned and tarnished Unc.
- 140 1873. Closed 3. Rainbow toned **Proof**. Nice. Decidedly undervalued; as rare as the Trime, and definitely rarer than the 2c since the latter was restruck.
- 141 1873 **"S"**. Toned and tarnished Unc. Not bad; desirable because untouched.
- 142 **Dimes. 1838 "O"**. Liberty seated, no stars. Good, bold. Evenly worn, obverse bolder than reverse; no noticeable nicks or dents.
- 143 **1860 "O"**. About Good; everything readable except ERIC of AMERICA, though much worn. Date and mintmark clear. Scratched up near head. Very rare, many times more so than the catalog value would suggest. We have handled less than six altogether since 1951.
- 144 **1878 "CC"**. V. Fine or better. Rare.

- 145 1916 "D". V. Good or so. In hysterical demand.
- 146 1942/41. F/VF, nicked and scotched; overdote clear.
- 147 **Twenty Cents.** 1875. VF, possibly a former Proof. Has its quote of bog handling marks.
- 148 1875 "CC". EF, not well struck up but lustrous. Comporetively clean.
- 149 **Quarters.** 1806. B-3. A very hord coin to grode. Though it shows troces of mint lustre on reverse, it is very weakly struck in centers, so much so that it is difficult to soy where weor (trifling ot worst) leaves off. Probably bosicolly EF, but we'll coll it VF for conservotism. A nice coin in ony event.
- 150 1815. Only one voriety. V. Good, strong where struck up. Populor dote, deservedly so.
- 151 Duplicote. About VG, also bold.
- 152 1879. Though bought os "Proof?", this is o nicked-up first strike. Nevertheless rare; only 13,600 regulors coined.
- 153 1917 "S". Type I. Unc., full heod ond shield, nearly full knee (minor mint obrosion on it, not noticeoble). Nicely toned; otherwise choice. Cotologs ot \$25.00.
- 154 1930. Unc., olmost full heod ond shield, full knee; brilliont. Also, 1917. Type II; off Unc. (poorly cleoned), fairly good strike. 2 Pcs.
- 155 **Half Dallars.** 1795. Beistle 18-P; Haseltine 18. Strictly VG, the reverse olmost Fine. Of very greot rority, nearly or quite **R-7**; one of the twelve hordest vorieties of this year to obtoin. We hove seen worse exomples of common die sold os Fine. Voluoble.
- 156 1807. Bust r. B. 2-C; H-6. VG plus, flot strike. This Voriety is readily identifioble by o lump between S ond OF.

- 158 1882. **Proof**, but not pristine; microscopically nicked. Reverse has a dull film which can be easily removed with acetane.
- 159 **Silver Dollars**. 1800. Bolender 5. V. Good plus. Scarce variety, readily identified by the tiny chips out of die at R in LIBERTY and second T of STATES.
- 160 1860 "O". Fine, but minutely nicked up; rather weak strike.
- 161 1866. Matto. About EF, but scrubbed enough to render forever obscure whether this was once a Proof or not. The kind of coin often sold by unscrupulous persons as "Proof" to young and ignorant collectors.
- 162 **Trode Dollar**. 1878 "S". VF or better, nicked up.
- 163 **Commemorative**. 1920 Pilgrim. Unc., the rev. especially acquiring golden toning.
- 164 **Gold Dollars**. 1851. Just about VF. Not bad.
- 165 1854. Type I. Better than VF.
- 166 1856. Type III. Slanting 5. Very Fine.
- 167 **Three Dollars Gold**. 1878. Very Fine, traces of lustre.
- 168 1889. Close to EF, but will not quite reach it. Rare, only 2,300 regular strikes made. Of additional interest as the final year of the denomination.
- 169 **Half Eagle**. 1838 "C". Mint letter between date and bust. Obverse close to Fine, reverse about VG, but nicked near

head and very weakly struck around eagle. Nevertheless an acceptable example of an important mintmark. Probably worth about \$32.50 in this condition.

- 170 **Eagle**. 1874. About VF, obv. a little softly struck, reverse bold. One of the less common dates; only 53,140 struck. Not in our Eliasberg offering.

- 222 1787. Fugio. Rev. Eight-pointed stars. Newman 15-Y. G-VG, some digs on each side. Rare type coin, seldom found better.
- 223 1783. Washington Cent. Military Bust. **Small head, plain edge.** Rev. Cap touches A in STATES; T.W.I. E.S. in exergue. Fine, the weaker reverse with some verdigris (easily removable). RR, seldom seen above VG.
- 224 Another, this one the uncommonly rare issue with lightly

engrailed (diagonally reeded or corded) **edge.** Cf. Lot 808, our 48th Sale, at \$34. VF/Fine, like that one, but with several rim nicks, a few of these on the heavy side. Definitely Rarity 7.

- 225 **Half Cents. 1806. Small 6, stems. G-2.** Sharpness of VG, but some old obv. corrosion around LIBERTY. This is nevertheless an acceptable example of a very rare type.
- 226 1807. VF-35; exceptionally early die state, well struck with complete borders—an unheard-of thing, as this date almost never shows obverse border denticles. Rare so.
- 227 **1808/7.** G-1. Good-6, obverse stronger than reverse; evenly worn, no mutilations. Above average, as this usually comes rough or banged up.
- 228 1809. Inner Circle. G-1. Close to Ex. Fine, strange rainbow patina. Rare in this condition; seldom seen above VF-20. Nearly as rare a variety as the 1808/7.
- 229 Duplicate. F-15, several minute rim nicks. Not bad.
- 230 Normal date, low zero. G-2. EF-40 or better; traces of faded mint color. Nice.
- 231 1809/6. G-5. Just about VF-20. Popular type coin, though hardly a rare one.
- 232 1828. G-1. Unc., mint red fading to light olive. Nearly though not quite free of the usual spots; more attractive than many of these Collins Find pieces, as they are often quite badly spotted and stained.
- 233 Duplicate. Just about equal to preceding, and worth as much.
- 234 A third, this one AU-50 or thereabouts (reverse nicer than obverse).

- 235 1828. **Twelve stars.** G-3. Fine to VF, blunt strike as usual. Not bad.
- 236 Remainder of the lot. 1804 Crosslet 4, stemless (2), Plain 4, Stemless (2); 1805 Stemless (2) Lg. 5, stems (3); 1809 various varieties (5); 1810; 25 G-1 and G-2; 26 both vars.; 28 G-1 (3), G-2 (2); 29 (6, one nearly EF); 33 (4). Definitely not the usual junk lot, as many of these coins rate Fine to VF or higher. Good to About EF, average Fine. This denomination now hard to locate in quantity. 34 Pcs.
- 237 **Large Cents.** 1818. N-10. AU-55, pleasant lustrous greenish olive. Nicer than many of the spotty red Randall Hoard examples of this variety.
- 238 **1843. Obv. '42, rev. '44.** Fine-12, obv. weak struck as usual. Popular and legitimately called scarce.
- 239 **Small Cents.** 1857. Flying Eagle. Unc., traces of old cleaning (not too bad); chip out of planchet as made, above ON—not on impairment—and a couple of minute rim nicks.
- 240 1860. Indian Head. Unc., though showing traces of contact with its brethren in a bag. Type coin; first regular year with oak wreath and shield.
- 241 **1861.** Beautifully toned, choice Unc. Worth full catalog or more; truly splendid coins like this are not seen every day.
- 242 1864. Copper-Nickel. Mostly brilliant Unc., bag marked. Untouched, natural color.
- 243 1865. Bronze. Bright red Unc., as nice as this ordinarily comes. A similar one in our 50th Sale went for \$11. against a \$10. estimate, \$8.50 Std. Cat. and \$8. Guidebook listing.
- 244 **1878. Proof,** bright red with same granular toning. Desirable!
- 245 1880. Choice red Proof; reverse dull film, removable with alcohol or other organic solvent.
- 246 **1885.** Lovely olive-mauve Proof. A \$13. to \$16. coin today, but not if its next owner dips it. Much of the charm of these pieces is in their colors.

-
- 256 1911 "S". Bright red Unc. Well struck, mintmark sharp.
 One brought \$16.50 in our 50th Sale!
 257 1913. Choice Proof, slightly iridescent red; two or three micro-
 scopic spots. For above overage.
 258 1913 "S". Red Unc., the reverse with faint bluish iridescence.
 Better than overage strike, everything clearly defined. This
 date has also brought \$16.50 in recent months.

 brown. A spotless beauty!

- 260 **1916.** Red Proof, unfortunately displaying abv. fingermarks (use argonic solvents, followed by the alcohol and cream of tartar method). Rare and seldom offered; most of those that trade hands do not deserve the name.
- 261 1925 "D". Blazing red Unc., choice. Catalogues at \$7., but may bring more.
- 262 1926 "D". Just about like the last. Minute signs of "a brief sojourn in a bog."
- 263 **1931 "D".** Bright red Unc., traces of fingermarks. "Probably the most unappreciated mintmark in the entire series" —as we said in our 50th Catalogue, where we are vindicated our opinion by bringing \$15.00.
- 264 1932, 32 "D". Choice red and blazing red Unc., second with minor discolorations. 2 Pcs.
- 265 1937. A somewhat discolored Proof. (Try the same treatment that we recommended for the 1916.)
- 266 1938. Mostly red Proof.
- 267 Another. Blazing red Proof.
- 268 1939. Brilliant "gem" Proof.
- 269 1940. Exact match for last.
- 270 Remainder of the small cents. 1862 (3), 1880, 1905, 06, 09 VDB, 09 (2), 27 "D", 30, 31, 39 "D" and "S", 43, 43 "D" and "S". All more or less Unc., two of the 62's apparently cleaned, the other Indians deeply tanned, as are most of the bronze Lincolns. The '43's are bright and free of the ubiquitous corrosion spots. The 27 "D" rather badly discolored, but probably restorable. 17 Pcs.
- 271 **5¢ Nickel.** 1938 Jefferson. Brilliant Proof. Guidebook priced at \$9.50.
- 272 Duplicate. Brilliant but has a few minute specks.

- 297 1926 "D". Brill. Unc., head and shield partly up, full knee; shattered obv. die.
- 298 **Holmes. 1827/6.** Beistle 2-B. A weakly struck but somewhat lustrous VF.
- 299 **1828.** Large 8's, **curled knobbed 2.** Though bought as EF, this is just VF; nevertheless it is far above average. Most specimens seen are badly worn.
- 300 1829. Small letters, large 50 C. This hard-to-grade coin has an amazingly deceptive proof-like surface, and traces of rubbing on the high spots. Almost but not quite free of bag marks. Should be seen.
- 301 1845 "O". Double cut date; no dropery. (Numerals 45 first cut to left, then corrected.) VF plus, deeply toned. Doubtless rare; we have not seen this recutting on other "No Dropery" coins.
- 302 1860 "S". VF or better, rim nick on either side.
- 303 1916. Liberty Walking. Choice Unc., pale golden tane. Usual strike or a bit better.
- 304 1917. Brilliant and choice Unc., beginning to acquire golden-brown tane.
- 305 1920. Brill. Unc., dashes of rainbow tone on reverse. Desirable.
- 306 **Silver Dollars.** 1878. 7 over 8 tail feathers. Choice Unc., the reverse evidently from a polished die. Quoted at \$10. to \$12.50.
- 307 1886. Brilliant **Proof.** Minute surface imperfections as made—marks from lint in the die, etc. In demand.
- 308 1889 "CC". Brill. Unc., first strike. As of this writing, nobody had yet turned up a bag full of these.
- 309 1891. Deeply toned and tarnished **Proof.** From the stack of Wayne Raymond, years ago.

- 334 **CONNECTICUT CONS. Commemorative.** 1900 Lafayette Dollar. By far the finest Unc. example we have seen of this popular coin, as it is devoid of rubbing or noticeable bag marks. Obverse perfectly struck; reverse almost equally so and as bold as that of any we have encountered. Pale coppery toning which turns to dark blue in two places at rims. retoning at borders. 2 Pcs.
- 335 Half Dollars. 1892, 93 Columbian. Unc., traces of cleaning;
- 336 **1915 "S" Pan-Pacific.** Unc., cleaned long ago; obv. with nearly concentric tarnish.
- 337 1918 Lincoln. Lightly toned Unc. Comparatively nice.
- 338 1920 Maine. Unc., acquiring "autumn leaves" tarnish.
- 339 1920 Pilgrim. Fairly nice Unc., usual strike. Mostly brilliant.
- 340 1921 Pilgrim. Choice Unc., better than usual strike. Reverse flecked with light tarnish.
- 341 **1921 Missouri.** Brill. Unc., minute bag marks as often found on this issue. In demand.
- 342 **1921 Missouri 2*4.** Unc., cleaned long ago; beginning to tone down, reverse again attractive. Undervalued, we think, in comparison with the regular Missouri.
- 343 **1921 Alabama.** Bought as Unc., this does not quite measure up. For conservatism, EF. Desirable nevertheless.
- 344 **1921 Alabama 2X2.** Lightly and nicely tarnished Unc. One of the better ones.
- 345 1922 Grant. Unc., lightly toned, as they run.

- 346 **1922 Grant Star.** With the identifying die defects at chin and tie. Unc., not well struck up, like most examples from these dies. Light tarnish.
- 347 1923 "S" Monroe. Lightly tarnished Unc., the usual minute bag marks. As well struck as this ever comes, which is not saying much.
- 348 1924 Huguenot. Also, 1925 Lexington and Stone Mountain. A hair's breadth from Unc., though lustrous. 3 Pcs.
- 349 1925 "S" California. Lightly tarnished Unc., appropriately including some golden tints around the '49'er panning for gold.
- 350 **1925 "S"** (locking mintmark) **Vancouver.** Attractive first strike, tarnishing at borders.
- 351 1926 Sesqui. Unc., brilliant and satiny. Minute bag marks as usual.
- 352 Oregon Trail. 1926, 26 "S". Brill. and choice Unc., the "S" coin acquiring border tarnish. 2 Pcs.
- 353 — 1928. Brill. "gem" Unc. Unappreciated low mintage item, lower than the Hawaii!
- 354 — 1933 "D". As lost, though not quite so sparkling in appearance, and the same comment holds here. Rarer than preceding.
- 355 — 1934 "D". As lost; some comment.
